JAMES BOND 007[™]

LICENCE TO KILL

THE AIM OF THE GAME

Become James Bond in his latest adventure and destroy the evil drug smuggler Sanchez. Guide 007 as he fights it out on Cray Cay, over Miami Bay and underwater on his way to the final confrontation in 18-wheeler fuel tankers. Defeat Sanchez and give Bond what he wants — REVENGE.

SCENE 1

PART 1

Bond and Felix swoop low in their helicopter over Cray Cay to prevent Sanchez escaping with his beautiful girlfriend. Avoid all tall buildings and shoot out the gun emplacements as you gun down his jeep. Remember — the faster you fly the lower you go!

PART 2

Bond leaps into action and sets off on foot to catch Sanchez. Watch out — many of Sanchez's henchmen have been deployed to ambush you. Duck and shoot your way through while collecting extra magazines. Watch out for the oil barrels as they explode after four direct hits. Can you make it back to Felix in the waiting helicopter? Your wits and your 15-shot Beretta can make the difference!

PART 3

Bond is lowered by rope from the helicopter as Sanchez attempts to escape to Cuba in his aircraft. Guide 007 onto the back of the dodging plane and attach the tow rope. Remember Felix can't guide the pilot if you are in the clouds and time is running out! Position Bond directly over the tail of the plane and press the fire button to "lock-on" — its not as easy as it sounds.

SCENE 2

PART 1

007 dives into the thick of it as he interrupts a 'Drop' by the drugs smugglers. They set off in hot pursuit and Bond must swim for his life as divers are launched against him. Swimming underwater stops the boats from firing, but what about the divers? Destroy the drug caches for a bonus. Armed only with a knife, can you hold out until the 'Drop' plane arrives?

PART 2

Harpoon the seaplane's pontoons and you're off in a high speed chase as you waterski

barefoot behind the seaplane. Watch out — high speed catamarans have been launched to catch you. Weave your way to the seaplane to gain control and escape!

SCENE 3

You have destroyed Sanchez' drug factory only to find he has escaped you once again. You must prevent Sanchez reaching the border with his drugs haul stored in 18-wheeler tankers. In the chase sequence to end all chases you must destroy each tanker in turn until you reach the final tanker containing Sanchez. Be on the lookout — Sanchez has Stinger missiles to prevent you using your LICENCE TO KILL. Once you have mastered each sequence, improve your score by going round again — but this time it will be much harder.

CONTROLLING BOND

Bond controls a variety of vehicles by moving left and right to dodge/steer. Push forwards and backwards to accelerate and decelerate. When running, aim by pressing the fire button to go into fire mode. Moving left and right aims the aiming reticle and pressing the fire button again shoots in that direction. Push forward to continue running. At certain times a reticle will appear telling you to Jump, Shoot, etc — press fire to do this.

STATUS PANEL

Underneath the 007 logo a systems panel is displayed which changes with each stage. This gives Altimeter/Radar/Ammunition rounds, countdown timer, oxygen level, take-off speed and miles to border in sequence. The bottom window displays the score/lives panel.

CONTROLS

Control Bond by Joystick or Keyboard

Keys:

Q — Moves forward	A — Moves backwards
SPACE — Fire	Shift & X — Exit
O — Moves left	P — Moves right
H — Hold/Pause

EXCLUSIVE PREVIEW of Corporation from Core Designs

by Paul Edwards

Corporation is set around the year 2020 and involves the illegal and dangerous genetic experiments being carried out by the company in question, the Universal Cybernetics Corporation (UCC). UCC's fictitious history began in the 'seventies and eighties' with their entry into the home computer market, quickly followed by the resounding success of their robotics operation. The production and marketing of domestic robots made UCC a fortune almost overnight.

This early success allowed them to diversify and expand until they became one of the world's largest corporations.

Inevitably, branches of UCC began to work for various defence establishments and they finally became involved in chemical and biological engineering. This background leads to the scenario presented in Corporation. Rumours exist that UCC is experimenting with genetically engineered sentient beings to be used as weapons. Such beings would be almost invincible; programmed to be vicious, immensely strong, fast, self-sufficient and capable of healing wounds at fantastic rates. However,

despite suspicious happenings near the UCC building, no sightings of these creatures have been made and there is no proof of their existence.

This screen shows the range of equipment you have to choose from.

This shows the main game screen — the face on the left would be your own digitised photograph.

The government is concerned about the rumours and needs to ascertain the truth of them. Unfortunately, they cannot allow an investigation to be connected with them, for fear that the company might move abroad, bringing economic chaos to the country. For this reason, the government have decided to use an independent agent to infiltrate the company and have approached Zodiac, an espionage agency. You play the role of the Zodiac agent and must make your way through the heavily guarded building to the basement level. Once there, you must obtain proof of UCC's illegal experimentation and escape.

This handsome creature is one of UCC's biologically engineered guards whilst his somewhat better looking friend is one of the robotic guards..

Aarrgh!! Another biologically engineered beastie!

A cynical, but still plausible, element is introduced in the story here. Even if your mission is successful, UCC will almost certainly escape the severe punishment they really deserve. So reliant is the economy on UCC, that they will probably only be told to cease their experiments in this country and to move that section of the company elsewhere. UCC will comply with such demands without argument. Although they have the power to harm the economy by relocating the organisation to another country, this could also cause them an incalculable financial loss.

As the Zodiac agent, you must work your way from the top of the building to the basement genetic laboratory, avoiding a multitude of electronic defence devices. To make things even more difficult, you must also avoid human, robotic and biologically engineered guards.

Here's your chance to see some of the Stampede team, in action

(shouldn't that be inactive? Ed) & put a face to the name!

The main man (well one of them anyway!) is David C. Bowler a fond lover of sheep, women and programming Stampede (but not necessarily in that order!)

Mr. Cool & Steve Bull's greatest fan is Ad-Manager Chris caught unaware by our camera!

This motley crew are from left to right Alan Jones a lover of Tetleys (tea of course!), Big Macs & drawing for Stampede, Paul Gittins a fan of flight sims, Stampede base ball caps and Stampede and the lovely Colin (who said that!) a lover of jackets (this one is due to be surgically removed shortly) women, women, Stampede and women. (Shouldn't that be swimmin'? Ed).

Ever ready to answer your queries, take your subs or listen to your life story is the lovely Nicky.

Tweaky FX himself is Stuart Scott commonly known as Stu a lover of Ribena, Big Macs and women (but not necessarily in that order!)

SIM CITY

On seeing the crumbling estates, out-dated roads and rusty bridges of your city, how many times have you said "Put me in charge for a day and I'll make this wretched thing work!" Now, with Sim City, take the destiny of the world's greatest cities in hand. Or take charge of a new evolving and growing city. Become both mayor and city planner of a dynamic real-time simulation.

SIM CITY

NOW AVAILABLE ON ST

What you should know about the game of the year.

Build houses, streets, factories, airports, a stadium, or even nuclear power plants. Organise urban transport, hire police, firemen, bulldoze entire neighbourhoods.

Raise and collect taxes, balance your budget, manipulate property values. Sim City is alive. It's loaded with animation and detailed sound effects. Build roads, cars appear. Lay tracks, trains go. Build an airport, planes fly. Neighbourhoods go upper-class. Areas deteriorate into slums. Small industries grow into huge factories. Everything is managed and animated in real

time. Every decision instantly influences the life of your town. In a special mode, you can even cause tornadoes, floods, fires and other disasters at your whim. Save San Francisco from the great earthquake of 1906. Or save Tokyo of pollution and from his famous B-movie monster. Sim City is an all-absorbing unique game which contains 8 pre-defined scenarios : e.g San Francisco, Tokyo, Rio de Janeiro... With it's exceptional depth of play, it's still simple to play with icons and graphics, without text commands.

Design and build the city of your dreams. Sim City gives you the keys. The rest is up to you.

INFOWORLD Volume II Issue 20 : "People playing Sim City are completely plugged into the world they create, disappearing for hours."
NEW YORK TIMES : "The model is very sophisticated, yet understandable. And just as important, it's fun, too."
